# Bifender Competitive Products

## Best-in-class liquid fertilizer compatibility

Better mixing  
in hard water

Remixes easily  
even after freezing

## No Stress

- Apply fertilizer and insecticide in a single pass
- Mix directly with all types of starter fertilizer; NO expensive equipment, NO additives
- No worries if weather delays application - product stays mixed in fertilizer for 24 hours with only mild agitation needed

## At plant Bifender protects:

- Corn, soybean, potato and a wide range of other crops against rootworm and wire-worm
- Potato and soybean against grape colapsis and white grub
- Soybean and corn against cut-worm, armyworm and seed-corn maggot
